

Initial Certification Examination Scheduling

IMPORTANT: Candidates will schedule their own exam through the Pearson VUE online system. This exam is administered at Pearson VUE professional centers **ONLY** in the continental United States. Candidates will receive instructions for scheduling a Pearson VUE exam appointment from the ABOMP. Instructions will be sent after the ABOMP reviews and approves the applications for each exam. Candidates are unable to schedule a Pearson VUE appointment until the ABOMP furnishes them with instructions for doing so.

Candidates will receive an email from ABOMP when the scheduling period opens with instructions for scheduling an exam. Candidates will have to register separately for each day of the examination. Examination appointments may be made during the designated Exam Scheduling period only (dates to be announced). The appointment testing time noted on Pearson VUE web pages reflects the total appointment time, including a tutorial, examination, breaks, and exit survey.

All ABOMP exam candidates must create a new Pearson VUE account to schedule an ABOMP exam. Please visit the link below to create your account.

If you are requesting special accommodations for an examination including accommodations for nursing mothers, please contact Amanda@ABPath.org prior to scheduling an exam appointment. We must notify Pearson VUE that you have been approved for an accommodation before you can schedule.

If you need assistance in scheduling or creating an account with Pearson VUE, please call Pearson VUE at 1-866-314-0159.
